

# I Can Be That Something

Alan Jackson

I watched him take your heart and walk away  
And leave you wondering what mistake you made  
And I'd never try to take his place  
I guess there's really nothin' I can say

But I can be that whiskey in your bottle  
I can be that smile that takes away your tears  
I can be the place you just want to run to  
I can be that somethin' to get you through

Love can build you up and shut you down  
Fill your heart with joy or make it drown  
I don't know if I can help you see  
It makes you blind sometimes to what you need

But I can be that whiskey in your bottle  
I can be that smile that takes away your tears  
I can be that place you just want to run to  
I can be that somethin' to get you through

Yeah, I can be that whiskey in your bottle  
I can be that smile that takes away your tears  
I can be that place you just want to run to  
I can be that somethin' to get you through  
I wanna be that somethin' to get you through
