

Don't Fade Now

Alan Parsons

If I leave the path will you show me the way
Been stuck on this road for too many days
All the future feels just like the past
I'm thinking it's time that I asked

How is it somehow I got left behind
With all the adventures I had in mind
A heart full of dreams while I was asleep
Are promises I'll never keep

Don't fade now
The best surprise
Is you're alive
Don't fade now
The unknown
Is your new home

If I make you smile will you tell me your name
I'll be a friend if there's sun or there's rain
I don't know if there's peace to be found
But there's no turning around

While I'm walking this mystical land
Will you use your magic and give me a hand
I'll be a fool if I try to decide
If I'm a fool or I'm wise

Don't fade now
The best surprise
Is you're alive
Don't fade now
The unknown
Is your new home

Young eyes don't know they're blind
A sinking ship won't change their mind
Wish I knew the fog was mine
Sailing through the mist of time

If I leave the path will you show me the way
Been stuck on this road for too many days
I'll be a fool if I try to decide
If I'm a fool or I'm wise

Don't fade now
The best surprise
Is you're alive
Don't fade now
The unknown
Is your new home
