

Avalon

Alan Walker

Somewhere beyond your wildest dreams
There's an island waiting for you
Dark skies, metro underground
All of your dreams coming true

There's a place we can go through the fire and the smoke
Come with me on our way, we're at the end of the world
Where there's peace and we know through the valley, there is go
ld
Brighter days, on our way, we're at the end of the world
Avalon

Avalon
Avalon

Gather ashes on the ground
Riches to be found, they're waiting
Gold dust lighting your escape
Nothing will ever be the same

There's a place we can go through the fire and the smoke
Come with me on our way, we're at the end of the world
Where there's peace and we know through the valley, there is go
ld
Brighter days, on our way, we're at the end of the world
Avalon
