

# Beautiful Nightmare

Alan Walker

In my beautiful nightmare

Like magic in your fingertips  
Sweets surrender on my lips  
Burning on my skin  
Addiction that I can't quit  
Close to heaven, but we slip

Flowing through hell and back  
Where love like a blurring deck  
Nights always fade to death  
Don't wake me up

Oh please don't go  
Leave me dancing with your girls  
Staying up my dreams can you take me there  
Be my beautiful nightmare  
Oh please don't go  
Hold me under, pull me close  
Staying up my dreams can you take me there  
In my beautiful nightmare

Feel you breathing down my neck  
Always see your silhouette  
Got me scratching at the woah oh oh oh  
Coming at me have to deck  
Drive my body off the edge  
Like the way you make me crawl oh oh oh

Flowing through hell and back  
Where love like a blurring deck  
Nights always fade to death  
Don't wake me up

Oh please don't go  
Leave me dancing with your girls  
Staying up my dreams can you take me there  
Be my beautiful nightmare  
Oh please don't go  
Hold me under, pull me close  
Staying up my dreams can you take me there  
In my beautiful nightmare

Oh some beautiful  
Don't let me go  
In my beautiful nightmare
