

Dust

Alan Walker

Verse 1

Sa sa sa save me, I don't need you to confess
Got some feelings in your chest
Always the same thing, At first you just play it nice
Then you tell me I'm your type

Pre-Chorus

It's so predictable, nothing original
You love me bla bla bla bla bla

Chorus

Here we go once again, swore that we were only friends
But now you love me to the end, no no no
Took a shot in the dark, I didn't mean to break your heart
But I told you from the start, no no no
Another heart bites the dust

Drop

Another heart bites the dust

Verse 2

Ca ca can't change me, yeah I've heard it all before
So leave it all at the door
So you can hate me, if it gets you moving on
I ain't gonna play along, no-oh

Pre-Chorus

It's so predictable, nothing original
You love me bla bla bla bla bla

Chorus

Here we go once again, swore that we were only friends
But now you love me to the end, no no no
Took a shot in the dark, I didn't mean to break your heart
But I told you from the start, no no no
Another heart bites the dust

Drop

Another heart bites the dust

Bridge

Don't act like this is my fault
You're facing a downfall, without my love
You can keep playing your part
While another heart will bite the dust

Chorus

Here we go once again, swore that we were only friends
But now you love me to the end, no no no
Took a shot in the dark, I didn't mean to break your heart
But I told you from the start, no no no
Another heart bites the dust

Drop

Another heart bites the dust

Outro
