

Forever Young

Alan Walker

Eyes closed, my hand out the window
Ridin' how the wind blows
I don't care where we go
I'll never come home
Running from an echo
Gonna be a long road
I wanna feel it all
Oh-oh, oh

Can we steal the setting sun?
Tell the minutes not to run
Oh, when all is said and done
We can be forever young
Can we get out of this town?
Stop the hours counting down
Oh, when all is said and done
We can be forever young

We can be forever young
Forever young
Forever young

I'll drive your future through the skyline
Rear view of a past life
I don't care where we fall
It's all beautiful
Speeding in the moonlight
Slowing down the good times
I wanna feel it all
Oh-oh, oh

Can we steal the setting sun?
Tell the minutes not to run
Oh, when all is said and done
We can be forever young
Can we get out of this town?
Stop the hours counting down
Oh, when all is said and done
We can be forever young

We can be forever young
Forever young
Forever young

Forever
Forever
We can be forever young
Forever
