Shut Up

Alan Walker

You're miserable inside your mind (oh my, oh my)
Been dancing circles 'round your lies (oh my, oh my)
It's stepping on the dreams of everyone you meet
This stupidness will get you high

Why don't you just shut up
I'm telling you we've had enough of
You and all your bullshit
We've heard it all before
Why don't you just shut up
I know you got to come but so what
Won't catch you on the fall cuz
You can't hurt us anymore

Why don't you just-
Why don't you just shut up
Why don't you just shut up

I wonder what happened to you (oh my, oh my)
To make you wanna spin the truth (all night, all night)
You sink your teeth
Insult the injury and we watch
Your high horse running on the loose

Why don't you just shut up
I'm telling you we've had enough of
You and all your bullshit
We've heard it all before
Why don't you just shut up
I know you got to come but so what
Won't catch you on the fall cuz
You can't hurt us anymore

Why don't you just-
Why don't you just shut up
Why don't you just shut up
Why don't you please
Why don't you just shut up
