

A Good Thing

Alana Springsteen

Standing out here
Restless and nervous
Counting every car that isn't yours

Hands in my pockets
I've never liked this
Part of me is hopin
Somehow you won't notice that I
Haven't stopped thinking about you
I tried
But your 4 wheel pulls up into my drive

And even before you
You open the door
I was already yours
Feels like my heart just forgot how to beat
Holding my breath unintentionally

Smile till it hurts
It's the best and the worst
Don't even know what that means
But I think it's a good thing

Hey yeah yeah

Hope it's a good thing

Hey yeah yeah

I can't explain it
The way that we're laughing
It's almost like a movie
When you're standing here next to me
And I
Feeling like I've known you all my life

If there's a way to never say goodbye
Then I wanna know how
I guess it's a thing now
Cause right now, right now it feels like my heart just forgot how to beat
Holding my breath unintentionally

Smile till it hurts
It's the best and the worst
Don't even know what that means
But I think it's a good thing

Hey yeah yeah yeah

Hope it's a good thing

Hey yeah yeah yeah

Think it's a good thing

Hey yeah yeah yeah

Hope it's a good thing
I hope it's a good thing

I haven't stopped thinking about you
I tried
Feels like my heart just forgot how to beat
Holding my breath unintentionally

Smile till it hurts
It's the best and the worst
Don't even know what that means
But I think it's a good thing

Hey yeah yeah

Hope it's a good thing

Hey yeah yeah
