

Hate It When I'm Right

Alana Springsteen

I knew that I'd be sorry
I knew there'd come a day
When I wished I never
Turned and walked away
I knew that I'd regret it
Somewhere down the line
I knew that breaking your heart
Would end up breaking mine

A million pieces
I could see it coming all along
I wish that I was wrong
But I, I knew that you would get on with your life
I would still be wanting you tonight
I hate it when I'm right

I know I had my chance
And now I know I don't
I knew that looking back
I'd say I should've known
When all was said and done
I knew that you'd be fine
Somehow breaking your heart
Would end up breaking mine

A million pieces
I could see it coming all along
I wish that I was wrong
But I, I knew that you would get on with your life
I would still be wanting you tonight
I hate it when I'm right

Yeah, I'm in a million pieces
I could see it coming all along
Wish that I was wrong
But I, I knew that you would get on with your life
I would still be wanting you tonight
Oh, I knew I'd still be wanting you tonight
I hate it, hate it when I'm right
Yeah
