

## look i like

Alana Springsteen

Your backwards hat  
And your Levi's on  
And your Alabama t-shirt  
My dad would say that your hair's too long  
And your boots have got that got red dirt

When you walked in  
Oh my god

You got that look I like a lot  
Yeah, I been watching boy, so what?  
No, I can't help it  
Don't know if you're here with somebody  
But I hope you're not  
'Cause  
You got that look I like a lot

Your body leaned up against the bar  
And the way you hold your whiskey  
Reflected light in your deep brown eyes  
Is enough to make me tipsy

No you couldn't be anymore my type  
All the other guys in the room look alike

But you got that look I like a lot  
Yeah, I been watching boy, so what?  
No, I can't help it  
Don't know if you're here with somebody  
But I hope you're not  
'Cause  
You got that look I like a lot

I got my eyes on the prize  
All the guys in the room tonight  
Look alike, but  
You got that look I like a lot

We don't chase  
We attract

No, I can't help it  
Don't know if you're here with somebody  
But I hope you're not  
'Cause  
You got that look I like a lot  
You got that look I like a lot  
Oh-ooh  
Oh-ooh  
You got that look I like a lot
