

Zero Trucks

Alana Springsteen

I heard word on the dirt road
She's riding shotgun
Thought it would but it don't hurt though
Now you're her problem
I ain't gonna chase your taillights
I ain't gonna miss your speakers
I ain't gonna waste one more night
Sleepin' in your t-shirt

Go ahead take a spin with your new girlfriend
With the windows down
Take her out to the same spot we got stuck
Kiss her back in the bed
Looking up at a million stars around
I'll be in the club getting low
With my friends on the floor, ay
Giving zero trucks
Giving zero trucks

I hope y'all have fun
My good time's overdue
Naw baby, I ain't drunk
I'm sober and over you
I ain't about to get all jealous
She can dance in your headlights
I don't even dread running into y'all
At all them small town red lights

Go ahead take a spin with your new girlfriend
With the windows down
Take her out to the same spot we got stuck (Good luck)
Kiss her back in the bed
Looking up at a million stars around
I'll be in the club getting low
With my friends on the floor, ay
Giving zero trucks
Giving zero trucks

I ain't looking in my rearview
I ain't gonna miss your lift kit
If you miss my tailgate
Well baby you can kiss it

Go ahead take a spin with your new girlfriend
With the windows down
Take her out to the same spot we got stuck, mm
Kiss her back in the bed
Looking up at a million stars around
I'll be in the club getting low
With my friends on the floor, ay
Giving zero trucks
Giving zero trucks

Yeah, yeah, baby I give zero trucks
