

## Blue Mountain

ALA.NI

Up in the Blue Mountain sky  
Where the red hawks fly  
And the green fern  
Wild and grows high  
River running far below  
Water from the sky  
No debating  
This is real life

Humming bird whose eyes know why  
The gecko takes the rock that's dry  
They know  
They know

Up in the Blue Mountain sky  
Where the red hawks fly  
Coco breezy  
Route to lay low  
And everyday that rocky road  
You'll get lost on the way  
Don't you worry  
It's time to explore

Now crickets sing you safe at night  
And fireflies bring their light  
Secret offerings they share  
And give

Up in the blue Mountain sky  
I won't come down
