

## Paris Theme (Memories Of You)

ALA.NI

Is this the rue where you bought me flowers?  
Is that the bar where we spoke for hours?  
It's all a blur, all of my memories of you

And did we kiss upon Pont de Sully?  
We ran but missed a movie in Passy  
I tried so hard to forget these memories of you

Can't I walk through the city without you?  
I'm sitting pretty until the flash of you comes to my mind  
Why this longing for something?  
I know I'm better without it  
So why this picture of you?

The night is cold without you to hold me  
The streets are full of strangers I can't see  
I want to live in all of my memories of you

Can't I walk through the city without you?  
I'm sitting pretty until the flash of you comes to my mind  
Why this longing for something?  
I know I'm better without it  
So why this picture of you?

The night is cold without you to hold me  
The streets are full of strangers I can't see  
I want to live in all of my memories of you
