

Something You Said

ALA.NI

Something you said
The other night
Made me believe that I am falling
Into your arms
A new paradise
Could it be you and I have started

You look at me
I look at you
Innocently we come together

This kind of loving
Don't need no kissing
Talking and laughing
Fill my heart with
Sunshine brightness
Freedom lightness
This kind of loving
Feeding the soul
It's not everyday
And we both know that/ both of us know
Simple loving
Take me easy

Something you said
Now should we change
Make an affair
I wouldn't want to spoil our friendship
How will we know
If this could be more
One simple kiss can be so telling

I care for you
You care for me
Shouldn't we be perfect together

This kind of loving
Don't need no kissing
Talking and laughing
Fill my heart with
Sunshine brightness
Freedom lightness
This kind of loving
Feeding the soul
It's not everyday
And we both know that
Simple loving
Take me easy
Shouldn't we be happy together
