

Summer Meadows

ALA.NI

It's like summer in the meadows
Everything so green with life
All the flowers smell like sunshine
Hearts only can shine bright
I haven't seen a grey cloud in the sky
For what feels like a million days
Oh it's summer in the meadows
I hope like this it stays

See the summer out my window
I must go out to play
I'll walk slowly with no shadow
The sun is high today
All of the birds sing along as they fly
High into the rays
I'll join and sing their sweet song in delight
We're all happy today

My Summer's pretty mellow
No stress may come my way
I feel like sunflower yellow
So don't bring darkness my way
The sun shines all the way through the night
Endless summer days
Come join the happy people
Who don't know when it's late

It's like summer in the meadows
Everything so green with life
All the flowers smell like sunshine
Hearts only can shine bright
I haven't seen a grey cloud in the sky
For what feels like a million days
Oh summer meadows forever shine bright
I hope she always stays
