

This Is Why

ALA.NI

This is why when you tell me that you love me
Something you've said oh a million times
I pretend that I don't care
And act like I didn't hear
I even fight back a smile

And this is why when you tell me that you love me
These three words makes me want to cry
Imagine what your kisses do
When mixed with an I love you
You make me feel like I can only die

You make me hot in December
Fever my name can't remember
But whenever we're together bebe
Whether I'm scared it's you

You make me hot in December
Fever my name can't remember
But whenever we're together bebe
Whether I'm scared it's you

This is why when you tell me that you love me
I must be loud and clear be bold not shy
I want to forever stay
Together where we lay

And for you to know you're always mine
You don't need no words to know
Just how much I love you so
A wise man said long ago
Eyes don't lie
