

# Blow Wind Blow

Alannah Myles

Blow wind blow all my worries  
Away from me  
Blow wind blow a little heaven my way  
Blow wind blow a little heaven my way

Day goes down  
Upon this dirty little town  
You gotta find another lonely soul  
To share the night

So may you never end  
All my sweet and ragged friends  
Won't you raise your glass, your voice  
And your will to fight

Cause your life belongs to you

Love's unkind  
It'll make your heart unwind  
You gotta send a message  
To yourself to carry on

Burnt out and broke  
Another romance in smoke  
You better love a little bit of  
Somethin' that'll make you strong

Here's a song to see you through  
Yes a song will see you through

Blow wind blow all my worries  
Away from me  
Blow wind blow a little heaven my way  
Blow wind blow a little heaven my way

Life comes true  
In spite of,  
Everything we do  
You gotta, learn to love  
When the joke is played on you

The great unknown  
Will make you shiver to the bone  
You wanna close your eyes  
And pretend you're not alone

Here's a song to sing you home  
Yes a song will sing you home
