

# Make Me Happy

Alannah Myles

Nothin' in your pocket, something up your sleeve  
You look right up my alley, coming down my street  
The gun goes off at midnight, whistle blows at dawn  
Give me half the morning and we'll carry on

Straight from your hip, make a backbone slip  
Right in front of my eyes like a sweet surprise - hey hey hey-  
yeah

Bet you're gonna find a little foolin' on your mind  
Soon you're gonna feel a little tuggin' on your line  
Bet you're gonna be a little nervous boy  
Run for cover and jump for joy

You make me happy without even trying, you make me happy every  
time, oh yeah

Gotta roll with the punch, stagger with the kiss  
Follow what you feel on a night like this  
Gotta raise up your flag, holler in the street  
Someone's throwing roses all around your feet

Straight from your lips, you're gonna let it slip  
It's there in your eyes so don't apologize - hey hey hey-yeah

You make me happy without even trying, you make me happy every  
time, oh yeah

Hey hey hey-yeah

Bet you're gonna find a little foolin' on your mind  
Soon you're gonna feel a little tuggin' on your line  
Bet you're gonna be a little nervous boy, oh

You make me happy every time, you make me happy without even tr  
ying  
You make me happy every time, oh yeah...
