Alaska Thunderfuck

Cocaine makes me sleepy  
Molly makes me pissed  
And I don't fuck with Tina  
'Cause she isn't on the guest list  
Smoking makes me throw up  
Whisky makes me fight  
And I don't fuck with those sleeping pills  
'Cause they keep me up all night

I don't feel much at all until the moment you come  
And I get high all over again

I wanna get turned on your love  
I wanna get turned on your love  
I wanna get twisted, twisted, all night long  
I wanna get turned on your love  
I wanna get turned on your love  
I wanna get twisted, twisted, all night long  
Woah-oh

Twisted, twisted  
Twisted, twisted  
Twisted, twisted  
All night long

Mushrooms make me angry  
Sugar don't taste sweet  
I try to get high on LSD  
But it didn't work on me  
I can't focus on adderall  
Xannies make me tweak  
I try to get drunk on moonshine  
But that shit was way too weak

I don't feel much at all until the moment you come  
And I get high all over again

I wanna get turned on your love  
I wanna get turned on your love  
I wanna get twisted, twisted, all night long  
I wanna get turned on your love  
I wanna get turned on your love  
I wanna get twisted, twisted, all night long  
Woah-oh

Twisted, twisted  
Twisted, twisted  
Twisted, twisted  
All night long

When I wake up in the morning  
And my head is sick and spinning  
I turn in place, I see your face  
And I can't wait to get twisted again  
Again

I wanna get turned on your love

I wanna get turned on your love  
I wanna get twisted, twisted, all night long  
I wanna get turned on your love  
Even if I get burned on your love  
I wanna get twisted, twisted, all night long  
Woah-oh

Twisted, twisted  
Twisted, twisted  
Twisted, twisted  
All night long  
Woah-oh  
Twisted, twisted  
Twisted, twisted  
Twisted, twisted  
All night long
