

## Burnt Alive

Alastis

Mirror of our future  
Present in our past  
Close to the beginning  
Familiar to the end  
She was open to the love  
She was open to the truth  
That's why she was tortured  
That's why she was killed

Burnt alive, for your silence  
Burnt alive, by your faith  
Burnt alive, she had found  
Burnt alive, she had said, truth

Give me a reason, give me a way  
To believe in you  
Now, show me your face, show me the path  
To your deepest beliefs

Burnt alive, for your silence  
Burnt alive, by your faith  
Burnt alive, she had found  
Burnt alive, she had said the truth

She was judged by your faith  
She was killed by your hands  
But the harm is already made  
And I'll never forget it  
I've seen the door and never forget your true face

So, give me a reason, give me a way  
To believe in you  
Now, show me your face, show me the path  
To your deepest beliefs
