

How To Swim

Alayna

I can't take my eyes off you
Watch me leave my soul to you
I know the outline of your lips
I know the curve of your happiness

I studied it while we drove all night
You looked so perfect in the blue light
Was always scared of looking too much
Maybe I'd fall out of this love

But I'm all in
I'm divin'
But I never checked the bottom
And I don't know how to swim

But I'm all in
I'm divin'
But I never checked the bottom
And I don't know how to swim
