

Throwing myself out of balance
Putting my worth in romantic
Took my foundation for granted
Granted
Looking outside for something that I'm craving
Trying to find it in his validation
So disappointed when he couldn't make it

All of the love I've ever had it stays right here
And all of the fragments of it form the sediment
I'm standing on
And I need to trust it

When it all comes down
When it all comes down
Unravelling the thread
And it feels like falling
When it all comes down
It all comes down
Falling in and out of love
But I still land softly
Ooh, I still land softly

I'm lucid again
The arms that have held me will hold me and cradle me until the end
How lucky am I
The heavenly feminine stays as the genesis of my whole life
My whole life
Oh

When it all comes down
When it all comes down
Unravelling the thread
And it feels like falling
When it all comes down
It all comes down
Falling in and out of love
But I still land softly

When it all comes down
When it all comes down
Unravelling the thread
And it feels like falling
When it all comes down
It all comes down
Falling in and out of love
But I still land softly
But I still land softly
But I still land softly
