

# Sugar

Alayna

Woke up in paradise  
Found myself in your eyes  
Baby, I think we made it  
We made it  
We were lovin' in lowercase  
But now we're seein' better days  
Baby, I think we made it  
We made it

You're my water  
You're my comfort and my saving grace  
You're the colours that I try to paint  
You're the sugar that my body craves, mmh, mmh, mmh  
You're my healer  
You're the reason I don't go insane  
I'm realizin' more every day  
I really need you and that's okay, mmh, mmh, mmh

So we ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die  
Yeah we ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die

Feels good to sink in  
I'm not less of a person  
Maybe it's 'cause we're magic  
We're magic  
Couldn't lose you if I tried  
And we musta tried a hundred times, yeah  
Maybe it's 'cause we're magic  
We're magic

You're my fire  
You're settin' everythin' up in flames  
You burn my tongue when I get a taste  
But I mean it in a good way, mmh, mmh, mmh  
You take me higher  
You're the blood pumpin' through my veins  
I'm realizin' more every day  
I really need you and that's okay, mmh, mmh, mmh

So we ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die  
Yeah we ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die

We ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die  
Yeah we ride, yeah we ride, yeah we ride  
Into the light, syncing up till we die
