

The Ground

Alayna

I am a child
Everything that's in view is full of wonder
Now I am old
And feel like I've seen all the colours there are to see

Maybe I'll never feel the same highs
Maybe I only felt high because I was close to the ground

How many times
Did I run to my mother saying the sky was falling
Come 25
I was the one falling out the sky just to feel something

Maybe I'll never feel the same highs
Maybe I only felt high because I was close to the ground
The ground
The ground

So I'll go lie down on the ground
And try see animals in the clouds
I'll go lie down on the ground
And try see animals in the clouds

Maybe I'll never feel the same highs
Maybe I only felt high because I was close to the ground
