

# Brighter Days

ALAZKA

How could I forget  
The dreams we had  
And the promises  
We made to ourselves

Memories of brighter days  
Remembrance of another way  
Forgotten for ages, lost in time  
No cross to mark the place they lie

Take it back  
Take it back  
To how it used to be

Take it back  
Take it back  
The life that was always yours  
And never give it away

The years go by  
And we still wonder if there's  
More to this  
More to this

Now we wave goodbye  
And there was always something  
More to this  
More to this

They say that time runs like sand  
And so does your life  
Tossing and turning for the sake of nothing  
Struggling to survive  
How can we live on if it's always the same  
When we are starved, fucked and caught in routine  
Caught in routine

The colours fade away  
Leaving nothing but the bitter taste of regret  
Time's up, no chance to reset  
Life ends and we all pay the debt

Take it back  
Take it back  
To how it used to be

Take it back  
Take it back  
The life that was always yours  
And never give it away

The years go by  
And we still wonder if there's  
More to this  
More to this

Now we wave goodbye

And there was always something  
More to this  
More to this
