

Clockwork

ALAZKA

You know you've waited far too long
Another day already gone
Through all the times you stayed unhurt
So many lessons never learned

You never tasted any blood
How can you say you understood
What if a dream's price is your life
What if there's only tonight

Waiting and waiting while time is taking
The best of me, the best of me
(Yeah)
The best of me, the best of me

Come take your chance
Come take the key
A heart unlocked can set you free
From all the ties that hold you down
Believe me you are not alone

(Ohoho)
(Ohoho oh)
There's no time to stop the clocks
(Ohoho)
(Ohoho oh)
There's no time to stop the clocks

You never tasted any blood
How can you say you understood
What if a dream's price is your life
What if there's only tonight

Waiting and waiting while time is taking
The best of me, the best of me
(Yeah)
The best of me, the best of me

Waiting and waiting while time is taking
The best of me, the best of me
Waiting and waiting while time is taking
The best of me, the best of me
The best of me, the best of me
The best of me, the best of me
