

She's Into Something

Albert Collins

Say what you do!

Snappin of a finger make a dog wag it's tail
A whistle from her voice make a train jump it's rail
Take her to the racetrack/show her face
A horse in years'll come in first place!

She's into something/ she's into something
She's into something/ You should be into something too!

Well you laughted at her about a week ago/
Now she's met a man with a whole lotta dough and oh yeah he's r
ich! I seen the money!
And all she had to was to call the man "Honey"

She's into something/ She's into something
She's into something/ You should be into something too!

She rides around town/ on her wheel/
Oh yeah you might say she got herself a stone-cold deal/
One thing the girl/she dont have to do/
is worry 'bout no money when the payment's due!

She's into something/She's into something/
She's into something man you shouldbe into someting too!
