

Don't Bother Me Babe

Albert Hammond

The other night
I had a dream
And it's too late to wake up now
Don't bother me, babe
I was a bird
Up in the sky
And I was crying looking down
Don't bother me, babe

I wanna know
Where did it go?
There's nothing wild
A place where nothing grows
I wanna know
Maybe I don't
We gotta change our ways
And I know we won't
We're gonna pay someday
Don't bother me, babe

The other night
I had a dream
There was a city made of gold
Don't bother me, babe
There was a man
The devil's son
Counting the money that he stole
Don't bother me, babe

I wanna know
Where did it go?
We had it all
Now everybody's broke
I wanna know
Maybe I don't
Is this a pharaoh's world
As cold as stone
They're gonna pay someday
Don't bother me, babe

Social addiction is everywhere
People pretending they know
Everybody is looking at Chinese phones
Nothing's gonna change it
Never gonna change so
Don't bother me, babe

The other night
I had a dream
I was surrounded by guitars
Don't bother me, babe
The sky was red
The sun was blue
It was a concert up on Mars
Don't bother me, babe

I wanna know

Where did it go
That little rock
That used to be our home
I wanna know
Maybe I don't
Why do we always make the same mistakes?
We're gonna pay someday
Don't bother me, babe
