

Hero On Parade

Albert Hammond

Everybody loves to love
The hero on parade
Out there on the stage tonight
The guy who's got it made

Still at times I find myself
Wishing they were right
If everybody loves me
Where are they tonight

Everybody loves to love
The local boy made good
Surely I'd find peace of mind
If anybody could

But after the applause is gone
I sometimes wish I knew
Why everybody loves me
Everyone but you

Haven't I got all the things
Success alone can give
Wouldn't everybody love
To lead the life I live
All I need is someone I can share it with

Haven't I got all the things
Success alone can give
Wouldn't everybody love
To lead the life I live
All I need is someone I can share it with
