

# Let It Go

Albert Hammond

If you don't know anyone  
Who's feeling at ease  
If your world is breaking up  
Then you're just like me  
What I've learnt from an ending  
When turning the page  
Is love's not the kind of thing  
That lives in a cage

Let it go, let it go  
Find the doorway to peace  
When your heart is breaking out  
Walking the sidewalk  
Then you know, let it go

And if I could change anything  
I'd do it right now  
And if I could heal anyone  
I'd heal them somehow  
I don't have the answers  
But I do have the prayer  
That you know I miss you  
And love you and hear me  
From somewhere out there

Let it go, let it go  
Find the doorway to peace  
When your heart is breaking out  
Walking the sidewalk

Then you know, let it go

Let it go, let it go  
Let it go on, let it be  
When nothing is working out, take it  
You know, let it go, let it go

Let it go, let it go  
Find the doorway to peace  
When your heart is breaking out  
Walking the sidewalk  
Then you know, let it go

Let it go, let it go  
Let it go on, let it be  
When nothing is working out, take it  
You know, let it go, let it go

If you don't know anyone  
Who's feeling at ease  
If your world is breaking up  
Then you're just like me
