

Good Time Charlie

Albert King

I'm tired of being, your good time Charlie
To you, that's what I'm all about
The only time you wanna see me, girl
Is when you want me to take you out

I wined and dined you
And kept you well dressed
I spent my hard earned money
To try to keep you impressed
The only reward from you
Was a goodnight kiss or two
But I got news for you
All your good times are through

You better find yourself another good time Charlie
Do you hear me, child
You can go and find yourself another good time Charlie
Cause all of those good days from me is through

It's a bitter pill to swallow
That thing they call pride
But you can't understand
The hurt I feel inside
Like the old sayin' goes
Girl you took me for a ride
You can go and find yourself another good time Charlie
Go ahead and find yourself, baby, mmm
Another good time Charlie

I'm tired of being, your good time Charlie
To you, that's what I'm all about
The only time you wanna see me, girl
Is when you want me to take you out

You keep on tellin' me, it's your social standin'
I can't afford your lifestyle, it's just too demandin'
Maybe someday you'll change, until this comes about
I got news for you girl, right now I'm checkin' out

You better find yourself another good time Charlie
Do you hear me darlin', yeah
I'm tired of bein' your good time Charlie
That's why I'm checkin' out, today
