

Before & After

Albin Lee Meldau

There's a knot in my stomach
I can't seem to shake
There's a darkness each morning
That keeps me awake

But I know what's coming
And I don't wanna see your face
Can't make time go faster
That wouldn't be the answer
It's not the moment before
It's the lifetime after

Well, I don't want to surrender
But I already know our fate
You've been loving me so tender
But now you've lost all faith

But I know what's coming
And I don't wanna see your face
Can't make time go faster
That wouldn't be the answer
It's not the moment before
It's the lifetime after
Can't make time go faster
That wouldn't be the answer
It's not the moment before
It's the lifetime after
