

I Need Your Love

Albin Lee Meldau

Our love is something
Baby, it is more than love
Our love is something
And now I just can't get enough

The walls are closing in
On me, oh my
The walls are closing in
On me right now
Just like a boat out on the open sea
Way out on the distance, those sirens sing for me
Like Moses he did divide the waves
Saved as an infant to free the slaves

Our love is something
Baby, it is more than love
Our love is something
And now I just can't get enough
I need your love
I need your love

Just like I'm starved, exhausted in this draft
I need a drink of water, oh boy, I need it fast
I'm stuck out in the desert and all I can see
Is you on the horizon, you waiting for me

Our love is something
Baby, it is more than love
Our love is something
And now I just can't get enough
I need your love
I need your love

I need your love
Well I need your kiss
Babe I need your love
Oh like every day

Our love is something
Baby, it is more than love
Our love is something
And now I just can't get enough
Our love is something
Baby, it is more than love
Our love is something
And now I just can't get enough
I need your love
I need your love

I need your love
