

Persistence

Albin Lee Meldau

Persistence be the key
If you love her sincerely
It's some passion we gon' need

All I wanted for you to express, real love
All I wanted for you my love, my love back
All I wanted for you to express, real love
All I wanted for you my love, my love back

She said call it what you want
She said call it what you need
Till you get some
She said call it what you want
She said call it what you need
Till you get some

Don't you cry in pain
Yeah, persistence be a game
Don't you look twice
'Cause you's is my paradise
Don't you cry in pain
Yeah, who feels it knows the pain
Don't you look twice
Paradise, it's in her eyes

All I wanted for you to express, real love
All I wanted for you my love, my love back
All I wanted for you to express, real love
All I want is for you my love, to relax

She said call it what you want
She said call it what need
Till you get some
Call it what you want
She said call it what you need
Till you get some
Call it what you want
Call it what you need
Till you get some
