

Keep On Singing

Alborosie

Mmm yeah, yeah
We made of flesh, made of dreams
We all right and wrong
We made of earth, made of sky
One place where we belong
Keep singing lyrics from the same silly song
Keep di fiyah burning through di night
Ooh yeah we're strong

We know the truth, but follow lies
The world's greatest
Stay a long time, but we're young
We are the latest
We smile to hide tears inside
So just face it
We're proud and beautiful
No one can take it

The world demand for you to be a number one
Third class citizen, first class champion
It's just a rat race or a competition
One blood, one dream, one destination

Rain is falling but we (Falling)
Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings

Rain is falling but we (Falling)
Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings

We're scared to live, we're scared to die
Truth is a mystery
To know your future, check the past
It's in the history
No magic game, no crystal ball
A simple recipe
United strong, divided weak
I call it destiny

We fall in love and run away
So then a baby born
Another angel come to life
To fly against the storm
And then the money stress
We owed another bill to pay
Smokin' a spliff and bawl out loud
We need a better way

Rain is falling but we (Falling)
Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings

Rain is falling but we (Falling)

Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings

Live it or just take it
Life is all you make it
You never ask to come
And you don't want to go

And no matter what race
What faith, what face
You're beautiful
We are beautiful

Rain is falling but we (Falling)
Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings

Rain is falling but we (Falling)
Keep on shining and sing (Shining)
Keep on doing our thing
No matter what life brings
