

Something That I Am Missing

Alcatrazz

I'm swinging down from 6/8
To a measure more relaxing
With a rhythm that beats time with my heart
It's a little less disturbing
When the music flows like water
It keeps my mind from trying too hard

Can you tell me something
That I may be missing
In this music is there
Something I'm not getting?

When a song becomes too heavy
Sometimes I just can't lift it
I leave them there to die on the floor
I just can't stand to hear them
With their devil, hell and demons
Don't they ever have some new place to go?

Can you tell me something
That I may be missing
In this music is there
Something I'm not getting?

Can you tell me something
That I may be missing
In this music is there
Something I'm not getting?
Can you tell me something
That I may be missing
In this music is there
Something I'm not getting?
