I woke up that night, felt that we should leave
And just take a flight to Rio de Janeiro
Cause if you like to party come on over, we'll be here all night
I grabbed a cab down to Copacabana
I think I saw the girl from Ipanema
If you wanna dance to bossa nova Follow me tonight

Like a shooting star, so bright
Lighting up your eyes, tonight
Can you feel the rhythm take you on
From Brazil with love (a-ha)
Wherever you are, goes up
Underneath the moon and stars
Dancing to the sound of a guitar
From Brazil with love

La la la la la la
La la la la la la

So I felt the need to taste a caipirinha
Don't let it stop behind me, just a little whisper
Bring your friends and join the carnaval, just follow me tonight
In the heat we heard the rhythm of the samba
Need to hurry now cause my body goes banana
If you want surrender to the music in Brazil at night

Like a shooting star, so bright
Lighting up your eyes, tonight
Can you feel the rhythm take you on
From Brazil with love (a-ha)
Wherever you are, goes up
Underneath the moon and stars
Dancing to the sound of a guitar
From Brazil with love

Everybody, you know we came to party
So let me see your body
Go crazy to the beats of Brazil
Everybody, you know we came to party
So let me see your body
Go crazy to the beats of Brazil

Like a shooting star, so bright
Lighting up your eyes, tonight
Can you feel the rhythm take you on
From Brazil with love (a-ha)
Wherever you are, goes up
Underneath the moon and stars
Dancing to the sound of a guitar
From Brazil with love

Everybody, you know we came to party

So let me see your body
Go crazy to the beats of Brazil
Everybody, you know we came to party
So let me see your body
Go crazy to the beats of Brazil
