

My My Me and Mine

Alcazar

As a kid (???)
I sewed my name in my underwear
Carved my initials in a big oak tree
I had a well developed sense of me

Is that wrong?
Seemed the healthy way to go
Looking out for numero uno
Oh, oh oh oh

My my me and mine
Me myself and I
I function perfectly
When independently
My my me and mine
We get along just fine
Sometimes I think of you it just gets all complicated

I take good care of my own backyard
?? To look that far
Im not interested enough to pry
Into the business of the other guy
On the streets
I even own the?? sheets
So i know, who I'm waking up with
Oh, oh oh oh

My my me and mine
Me myself and i
I function perfectly
When independently
My my me and mine
We get along just fine
Sometimes i think of you it just gets all complicated

Should i care? Care about others?
That you thought you'd smother
Under my wing
So i battle
My own little effort
No, i don't need the company

My my me and mine

My my me and mine
Me myself and i
I function perfectly
When independently
My my me and mine
We get along just fine
Sometimes i think of you it just gets all complicated

My my me and mine
Me myself and i
I function perfectly
When independently
My my me and mine

We get along just fine
Sometimes i think of you it just gets all complicated
