

Singing To Heaven

Alcazar

Music has made my life worth living
Music is all about loving and giving
Now that I say goodbye to my friends
I go singing to heaven, singing to heaven
High on a mountain I'm learning to fly
Spreading my wings and rising up high
Crossing the oceans, go through the motions
Music is all about love and devotion
I'm a believer, highest degree
Music has always set the world free
Best of intentions, higher dimensions
Rise to the sky on my day of ascension
Music has made my life worth living
Music has made my life worth living
Take on a challenge, go for a ride
Angels of heaven will stand by my side
Sonic invention, life in extension
Rise to the sky on my day of ascension
Music has made my life worth living
Music has made my life worth living
Singing to heaven, singing to heaven
Music has made my life worth living
Music has made my life worth living
