

## do or die

aldn

I feel like this is do or die  
I'm making a decision here, it makes me wanna cry  
B707 got me feeling fucking high  
But I'm not even worried if I make it out alive  
I lay my head onto your chest  
I swear I did my best  
To keep you in my heart  
When it's all falling apart  
I know this is the worst of me  
I'm not an enemy

They say, if I give up, I'm worried you might have a breakdown  
Everything you say right now is  
Stressing me out, I haven't eaten for some days now  
You never used to talk like this  
Texts from my exes and cigarettes, is frequent  
No second guessing and do it but you already know  
We can't keep this up, I'm worried you might have a breakdown  
You never used to talk like this

I watched some people passing by  
I wonder if they hate me when I look 'em in the eyes  
Opiates and cigarettes to help me pass the time  
I'm making bad decisions but oh well, I'm gonna die  
You wear your heart upon your sleeve  
Bunny, I don't wanna leave  
Run my fingers through your hair  
Just so you know that I care  
I know this is the worst of me  
I'm not an enemy

They say, if I give up, I'm worried you might have a breakdown  
Everything you say right now is  
Stressing me out, I haven't eaten for some days now  
You never used to talk like this  
Texts from my exes and cigarettes, is frequent  
No second guessing and do it but you already know  
We can't keep this up, I'm worried you might have a breakdown  
You never used to talk like this
