

kill you

aldn

I think I killed you in a dream last night
The most alive I've ever felt in such a long time
I'm still convincing myself I'm alright
I still can't let anyone new inside

Girl, I'm dying to forget every part of you
I'm lying, when say I met someone new
I'm trying to seem like I don't need you too
I'm dying to erase every part of you

I think I killed you in a dream last night
The best I've felt in a really long time
I should've left you when I saw the signs
It's like you never wanted to be mine

Girl, I'm dying to forget every part of you
I'm lying, when say I met someone new
I'm trying to seem like I don't need you too
I'm dying to erase every part of you

Every part of you
Every part of you
Every part of you
Every part of you

Girl, I'm dying to forget every part of you
I'm lying when say I met someone new
I'm trying to seem like I don't need you too
I'm dying to erase every part of you

Girl, I'm dying to forget every part of you
I'm lying, when say I met someone new
I'm trying to seem like I don't need you too
I'm dying to erase every part of you

Every part of you
Every part of you
Every part of you
Every part of you
