

look what u did

aldn

Look what you did, did to me
I can't walk, I'm paralyzed
And I know that you are full of jealousy
Why would you wanna be friends with me?

Set your bad intentions and watch me fall asleep, so carelessly
Yeah, I know you might not mean it, but can't you fuckin' see?
Can't you see?

Look what you did, did to me

Look at what you made, what a big mess
You're so obsessed, like what you see in me?
I know I'm not a great person
I know I'm not the best
I should confess, it feels good to see them doin' bad
They said that they were doin' fine
I know that that was just a lie
Don't take this pity for kindness
Don't wanna know where my mind is
I know I should've seen the signs
I wish that I could press rewind (Press rewind, press rewi-)

Look what you did, did to me
Look what you did, what do you envy in me?
Look what you did, why can't you let them free?
Look what you did, did to me
