

## paranoia

aldn

They think that I'm crazy (Maybe)  
And medicine will save me (Maybe)  
I brought a Glock to the party  
Just in case I ran into you there  
And I don't worry 'bout a thing you do  
I just know you tryna set me up  
I just know I got the thing you want, oh-oh  
Sending people to my window  
In the middle of the night  
Tell me, "Take my medication"  
So I'll be just what you like

Paranoia, paranoia, paranoia, out my mind  
Paranoia, paranoia, paranoia, in my room  
Put the poison in my food  
And tell me you did nothing wrong  
Paranoia, paranoia, paranoia, so alone

You sent me to the doctor (Fuck it)  
He told me I could be bipolar (Oh shit)  
I said that I don't believe him  
Gave me the needle anyway  
I know they wanna see the death of me  
Take away my color, turn me gray  
All this fucking medicine will make me fade away  
Fade away, I got something in my brain  
Something says I'm not insane  
But that's what they wanna change, I got

Paranoia, paranoia, paranoia, out my mind  
Paranoia, paranoia, paranoia, in my room  
Put the poison in my food  
And tell me you did nothing wrong  
Paranoia, paranoia, paranoia, so alone  
Paranoia, paranoia, paranoia, out my mind  
Paranoia, paranoia, paranoia, in my room  
Put the poison in my food  
And tell me you did nothing wrong  
Paranoia, paranoia, paranoia, so alone
