You take a walk in the dark just to stay afloat
There's a corner in your room with a bunch of clothes
You got a pill in your pocket hoping no one knows
Get killed, get rich, I get the way it goes
You try to tell yourself this the life you chose
But it's cool, it's fine, as you start to doze
Off into something happier
Off into something easier for you

I'm getting too familiar with the way you move around
I see you trying to speak but I don't even hear a sound
I can't predict the weather but I can foresee the now
I hope that you get found, I hope that you get found
I'm getting too familiar with the way you move around
I see you trying to speak but I don't even hear a sound
I can't predict the weather but I can foresee the now
I hope that you get found, I hope that you get found

Back on the road, you're driving down in Richmond
Slam on the brakes, it kills you in an instant
Talk all about how much they really miss you
Where was that love when you were having issues
Get killed, get rich, I guess that's how it goes
When you're someone that a lot of people wanna know
I know it's kinda hard for me to let it go
But we can't help who we are, so

You take a walk in the dark just to stay afloat
There's a corner in your room with a bunch of clothes
You got a pill in your pocket hoping no one knows
Get killed, get rich, I get the way it goes
You try to tell yourself this the life you chose
But it's cool, it's fine, as you start to doze
Off into something happier
Off into something easier for you

I'm getting too familiar with the way you move around
I see you trying to speak but I don't even hear a sound
I can't predict the weather but I can foresee the now
I hope that you get found, I hope that you get found
I'm getting too familiar with the way you move around
I see you trying to speak but I don't even hear a sound
I can't predict the weather but I can foresee the now
I hope that you get found, I hope that you get found
