

## time

aldn

From up on the hill, under the sun  
We were there from hospital beds  
Narcan in my brain  
We were there (Oh-oh-oh)

And the time we leave the memory  
Until there's nothing left of us (Ah-ah)  
I'll feed the next one  
But we can't unsee the past  
When we're dead

I'll see you there  
(There, there, there, there, there)  
(There, there, there, there, there)  
(There, there, there, there, there)

Wonder where you are  
Are you still making clothes?  
I'm still reaping what I sow  
Not a moment, oh  
You know something I don't  
Can you teach me to let go?

And the time we leave the memory  
Until there's nothing left of us  
I'll feed the next one  
But we can't unsee the past  
When we're dead

I'll see you there  
(There, there, there, there, there)  
(There, there, there, there, there)  
(There, there, there, there, there)
