

Free Your Mind

Aldo Nova

Hey, are you ready

If you want it well, he's got it
It's the remedy for everything you need
It'll cure whatever ails you I assure you
Satisfaction guaranteed

And it's everywhere around you
All you have to do is look up to the son
And there is no exclusivity
It's there available to everyone

Open your eyes and see
The true reality
Your brain might start to overload
Be careful don't let it explode
It's time to push the boundaries

Free your mind
You know your time has come
Free your mind
Then you will overcome

And society's corrupted
What's a world with no redeeming qualities, yeah
And the politicians' puppets
Who can't even tell the forest from the trees

And they'll push you in the corner
Till you're nothin' but a mindless piece of meat
But the doctor that is comin'
Can prescribe you some spirituality

Open your eyes and see
The true reality
Your brain might start to overload
Be careful don't let it explode
It's time to push the boundaries

Free your mind
You know your time has come
Free your mind
Then you will overcome
Free your mind
Then you'll burn like the son
Free your mind
And you will be reborn

Close your eyes
And bend space and time

Your brain might start to overload
Be careful don't let it explode
It's time to push the boundaries

Free your mind
You know your time has come

Free your mind
Then you will overcome
Free your mind
Then you'll burn like the son
Free your mind
And you will be reborn
Mind, mind, mind, mind
