

Let Our Worlds Collide

Aldo Nova

I know it's wrong
But I need you here to make it right
I'd walk a thousand miles
Just to get to you

I'm not that strong
But I won't give up without a fight
I've seen a thousand smiles
But it's still not you

Your long blond hair
Your big blue eyes
And I don't think that I could love you more
But tonight I'm really gonna try

But you're standing on the edge of the night
And no matter where you are, you can't hide
From the love I held inside
Your emotions never lie
Come on, right here by my side
Let our worlds collide

You're everywhere
When I take a breath you are my air
If I stop and stare
I see only you

I hear you laugh
You're always on my mind
And I can tell you that there's no one like you
Baby you are one of a kind

But you're standing on the edge of the night
And no matter where you are, you can't hide
From the love I held inside
Your emotions never lie
Come on, right here by my side
Let our worlds collide

I'll meet you at the edge of the night
The stars will align up there in the sky
And though I was dead, well now I'm alive

'Cause we're standing at the edge of the night
And no matter where we are, we can't hide
All the love we have inside
Our emotions never lie
'Cause you're right here by my side
We let our worlds collide
