

Bubbles

Aldous Harding

I whisper great love to you
How will she move in action?
Great love to you, great love
Telling you, he won't look 'round
Here is the spot where we shot the bubble down

Don't you wanna care for?
Don't you wanna know?
Pieces of that tearing around lovers like me

I whisper great love to you
How will she move in action?
Great love to you, great love
Neighbours say I'm looking better
I'll go over later on my bike

I'll be fine, I'm a winner
You're on my mind and it's no trouble clown
