Honey, your face is folding up
As the memory kisses you goodbye
It's better to live with melody and have an honest time
Isn't that right?

There's a definite vibe
You can't be pure and in love
In the corner in blue
Is my name (In the corner)

I've got it, I'm on it
You're in it, I'm honored
Fixture picture
I've got it, I'm on it
You're in it, I'm honored

I'm on
I've never burned bright
And how's the wine where you live?
Bet it's expensive
One day we'll share a glass together and the ride the dunes
I'm writing tune

There's a definite vibe
You can't be pure and in love
In the corner in blue
Is my name (In the corner)
