

## Party

Aldous Harding

He took me to a clearing  
The grass was warm  
And the air was soft

He had me sit like a baby  
I looked just twelve  
With his thumb in my mouth

I was as happy as I will ever be  
Believe in me  
I will never break from you  
If there is a party, will you wait for me?

I felt slow on the journey you planned  
I was ashamed  
When you yelled my name  
Stones smell good when you cuddle them  
All in a stack

I was as happy as I will ever be  
Believe in me  
I will never break from you  
If there is a party, will you wait for me?

I wander off the journey I've planned  
The doom I felt  
And the death I smelled  
I see now that he understands  
He cannot be helped

I was as happy as I will ever be  
Believe in me  
I will never break from you  
If there is a party, will you wait for me?
